APR Plus ECU Installation Guide

APR Plus software is installed through our direct port programming (DPP) software very similarly to our normal product line. To complete the installation, you will need the software installed on a windows computer, your login and password, an APR Cheetah Cable, VCDS and an adequate vehicle battery charger. DPP software can be installed using the following link: http://www.goapr.com/Browser_Update/DPP/APR%20Install.exe .

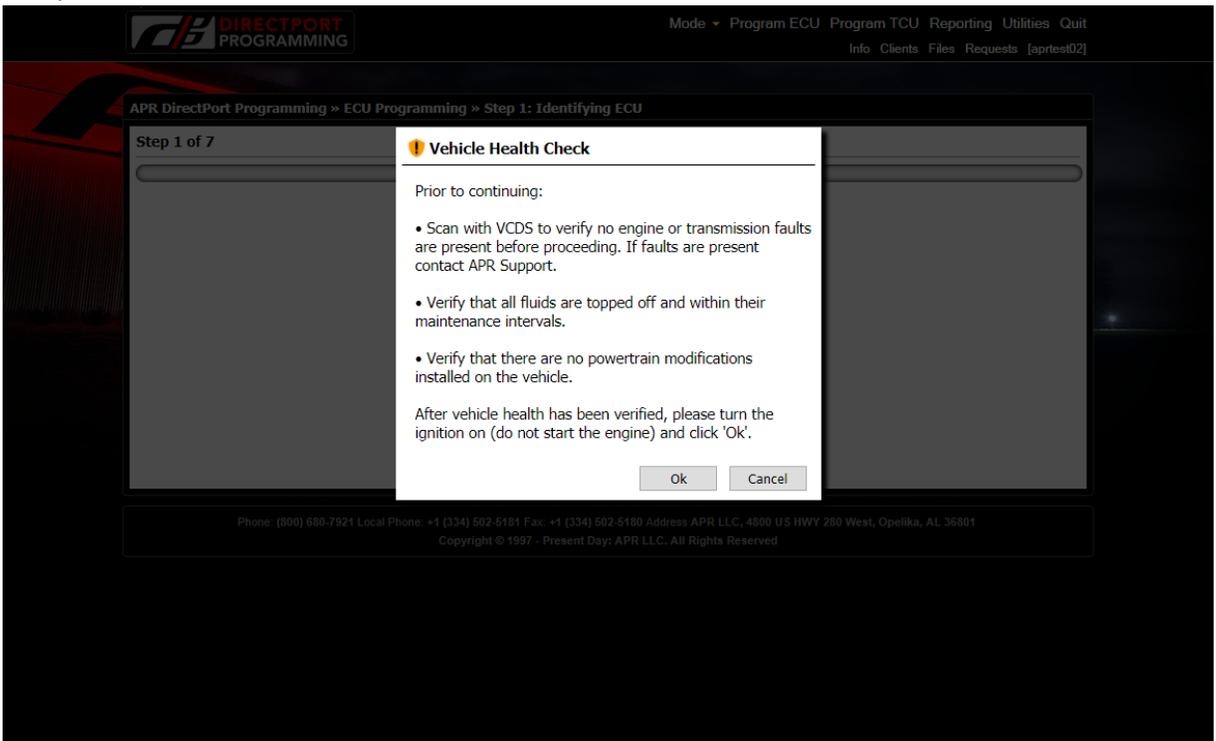

1. Install adequate battery charger to vehicle.
2. Log into DPP and select 'mode', then select APR Plus .

3. Select program ECU (note the change in background to APR Plus to show that you are in APR Plus mode).

4. Complete the Vehicle Health Check and click 'Ok'.

5. Connect APR Cheetah Cable to from the laptop's USB port to the vehicle's OBD-II port. The cable will identify the ECU and ask for customer information. The customer's **email address must be correct** and will be verified before proceeding. Once finished click 'update customer/create customer'.

The screenshot displays the APR DirectPort Programming software interface. At the top, the logo for DIRECTPORT PROGRAMMING is visible on the left, and a menu bar on the right includes options like Mode, Program ECU, Program TCU, Reporting, Utilities, Quit, Info, Clients, Files, Requests, and [aprtest02]. The main window title is "APR DirectPort Programming » ECU Programming » Step 2: Customer Information". Below this, a sub-header reads "Step 2 of 7: Data Located..." followed by the VIN "1K0907115AM - S0030 // WVWEV7AJ9AW111314".

The interface features several input fields for customer data:

- Warranty Transfer:** Existing Customer (selected), History [20]
- First Name:** Jeff
- Last Name:** Foster
- Address 1:** 101 Main St.
- Address 2:** (empty)
- City:** Spurbury
- State:** VT
- Zip Code:** 05001
- Country:** United States
- E-mail Address:** ralverson@goapr.com
- Phone #:** 555-555-5555
- Comments:** (empty text area)

Buttons for "Update Customer" and "View Related Burns" are located at the bottom of the form. On the right side, there is a search box with a "Search" button and a vertical alphabetical index (A-Z) next to a search results area containing the text "Demo.APR_Test".

At the bottom of the window, contact information is provided: Phone: (800) 680-7921 Local Phone: +1 (334) 502-5181 Fax: +1 (334) 502-5180 Address APR LLC, 4800 US HWY 280 West, Opelika, AL 36801. Copyright © 1997 - Present Day: APR LLC. All Rights Reserved.

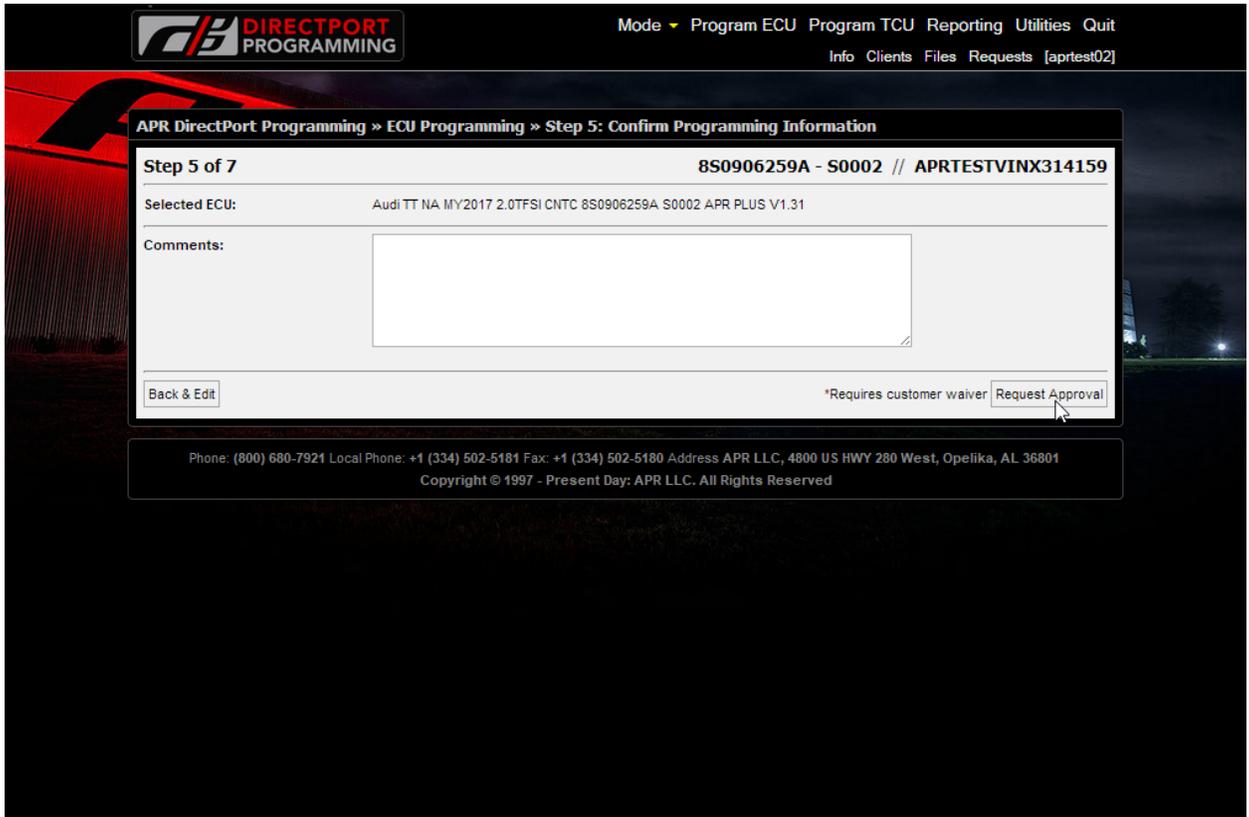

6. Select appropriate file from dropdown menu and click 'continue burn'.

The screenshot shows the 'APR DirectPort Programming' software interface. At the top, there is a menu bar with 'Mode', 'Program ECU', 'Program TCU', 'Reporting', 'Utilities', and 'Quit'. Below the menu bar, there is a sub-menu with 'Info', 'Clients', 'Files', 'Requests', and '[aprttest02]'. The main window title is 'APR DirectPort Programming » ECU Programming » Step 3: Select ECU'. The interface is divided into several sections: 'Step 3 of 7' with the identifier '8S0906259A - S0002 // APRTTESTVINX314159', 'ECU Selection' with a 'History [0]' button, 'PREVIOUS BURN INFORMATION' showing 'VW GTI NA MY2010 2.0T CCTA 1K0907115AM S0030 Stage 1 V2.4 [APR Mobile]', and a 'Select an ECU from the list below' section. This section contains a dropdown menu with three options: 'Audi TT NA MY2017 2.0TFSI CNTC 8S0906259A S0002 APR PLUS V1.31' (highlighted in blue), 'Audi TT NA MY2017 2.0TFSI CNTC 8S0906259A S0002 APR PLUS V1.31' (highlighted in green), and 'Audi TT NA MY2017 2.0TFSI CNTC 8S0906259A S0002 OEM Stock' (highlighted in purple). There are also 'Request Software' and 'Continue Burn' buttons. At the bottom, there is contact information for APR LLC and a copyright notice.

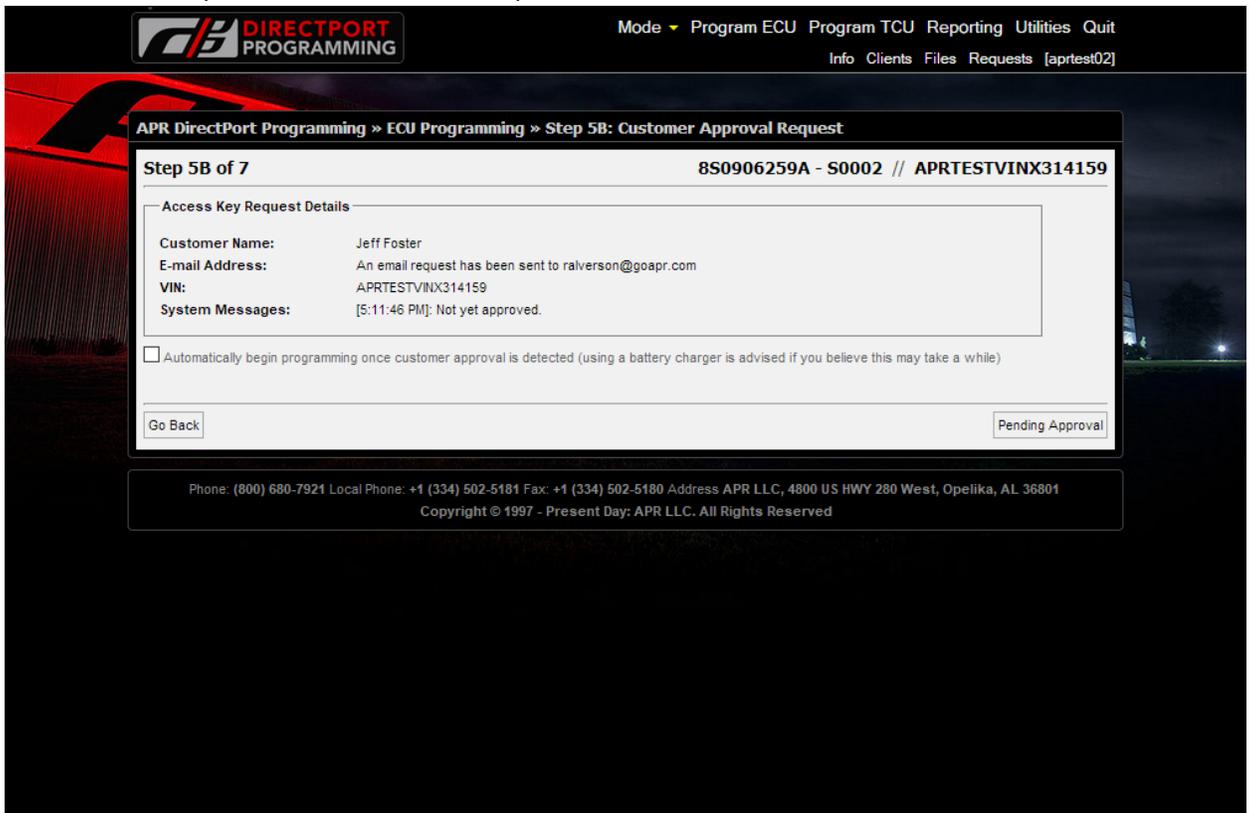

7. Select file from list of options and click 'continue burn'.

The screenshot shows the 'APR DirectPort Programming' software interface. At the top, there is a menu bar with 'Mode', 'Program ECU', 'Program TCU', 'Reporting', 'Utilities', and 'Quit'. Below the menu bar, there is a sub-menu with 'Info', 'Clients', 'Files', 'Requests', and '[aprttest02]'. The main window title is 'APR DirectPort Programming » ECU Programming » Step 4: ECU Settings'. The interface is divided into several sections: 'Step 4 of 7' with the identifier '8S0906259A - S0002 // APRTTESTVINX314159', 'ECU Settings' with a 'History [0]' button, 'PREVIOUS BURN INFORMATION' showing 'Burned Programs: 93 Octane V2.4' and 'Burned Options: No Lift Shift', 'Selected ECU: Audi TT NA MY2017 2.0TFSI CNTC 8S0906259A S0002 APR PLUS V1.31', and a 'This file is single program only.' section. This section contains two lists: 'ECU Programs' with 'Stock' and 'APR PLUS V1.31' (highlighted in grey), and 'ECU Options' with 'Modify Filters', 'Request Software', and 'Continue Burn' buttons. At the bottom, there is contact information for APR LLC and a copyright notice.

- Click 'Request Approval' to send ID verification email.

- The screen will update to show that the request has been sent.

10. The customer will accept the email verification.

11. After the customer accepts the email, click 'Burn ECU'.

The screenshot shows the 'APR DirectPort Programming' software interface. At the top, there is a navigation menu with 'Mode' selected, and options for 'Program ECU', 'Program TCU', 'Reporting', 'Utilities', and 'Quit'. Below the menu, there are links for 'Info', 'Clients', 'Files', 'Requests', and a user identifier '[aprtest02]'. The main content area is titled 'APR DirectPort Programming » ECU Programming » Step 5B: Customer Approval Request'. It displays 'Step 5B of 7' and the identifier '8S0906259A - S0002 // APRTSTVINX314159'. A section titled 'Access Key Request Details [@ 5:14:27 PM]' contains the following information: Customer Name: Jeff Foster; E-mail Address: An email request has been sent to ralverson@goapr.com; VIN: APRTSTVINX314159; System Messages: [5:14:27 PM]: Approval received. Below this is a checkbox labeled 'Automatically begin programming once customer approval is detected (using a battery charger is advised if you believe this may take a while)'. At the bottom of the main content area, there are 'Go Back' and 'Burn ECU' buttons. A footer at the very bottom provides contact information: Phone: (800) 680-7921 Local Phone: +1 (334) 502-5181 Fax: +1 (334) 502-5180 Address APR LLC, 4800 US HWY 280 West, Opelika, AL 36801 Copyright © 1997 - Present Day: APR LLC. All Rights Reserved.

12. ECU will begin programming.

The screenshot shows the 'APR DirectPort Programming' software interface. At the top, there is a navigation menu with 'Mode' selected, and options for 'Program ECU', 'Program TCU', 'Reporting', 'Utilities', and 'Quit'. Below the menu, there are links for 'Info', 'Clients', 'Files', 'Requests', and a user identifier '[aprtest02]'. The main content area is titled 'APR DirectPort Programming » ECU Programming » Step 6: Programming ECU'. It displays 'Step 6 of 7' and the identifier '1K0907115AM - S0030 // WVWEV7AJ9AW111314'. A progress bar labeled 'Programming' shows 54% completion. Below the progress bar, it says 'Programming ECU...'. A section titled 'Customer Data' contains: Customer Name: Jeff Foster; Customer VIN: WVWEV7AJ9AW111314. A section titled 'Programming Data' contains: Selected ECU: VW GTI NA MY2010 2.0T CCTA 1K0907115AM S0030 Stage 1 V1.2 [APR Mobile]; Serial Number: 402852. Below this is a 'Latest News' section with two articles: '9/6/2017: APR Crate Engine Program – 2.0T Gen 3 (MQB)' and '8/28/2017: APR's Tuning Suite for the 3.0 TFSI Gen 2 (Simos 16) is Now Available!'. The footer at the bottom provides contact information: Phone: (800) 680-7921 Local Phone: +1 (334) 502-5181 Fax: +1 (334) 502-5180 Address APR LLC, 4800 US HWY 280 West, Opelika, AL 36801 Copyright © 1997 - Present Day: APR LLC. All Rights Reserved.

13. DPP will update to show a successful installation. Click 'Clear All DTC's' to clear fault codes.

The screenshot shows the 'APR DirectPort Programming' software interface. At the top, there is a navigation menu with 'Mode', 'Program ECU', 'Program TCU', 'Reporting', 'Utilities', and 'Quit'. Below the menu, there are links for 'Info', 'Clients', 'Files', 'Requests', and '[aprttest02]'. The main content area is titled 'APR DirectPort Programming » ECU Programming » Step 5: Program Report'. It displays 'Step 7 of 7' and the vehicle identification '1K0907115AM - S0030 // WVWEV7AJ9AW111314'. The 'Final Status' is 'Successful'. Other details include 'Customer Name: Jeff Foster', 'Customer VIN: WVWEV7AJ9AW111314', 'Selected ECU: VW GTI NA MY2010 2.0T CCTA 1K0907115AM S0030 Stage 1 V1.2 [APR Mobile]', and 'Serial Number: 402852'. A large green checkmark icon is prominently displayed on the right. A 'Clear All DTC's' button is located below the status information. A 'Return to Front Page' link is at the bottom left. At the bottom of the window, contact information for APR LLC is provided: 'Phone: (800) 680-7921 Local Phone: +1 (334) 502-5181 Fax: +1 (334) 502-5180 Address APR LLC, 4800 US HWY 280 West, Opelika, AL 36801 Copyright © 1997 - Present Day: APR LLC. All Rights Reserved'.

14. Follow the instructions to allow DPP to clear fault codes.

This screenshot shows the same software interface as above, but with a modal dialog box open. The dialog box is titled 'Finalize Programming' and contains the following text: 'Please, key-off and key-on again.', 'Additionally, fault codes will be present after re-programming due to module communication loss.', and 'Click 'Ok' to continue clearing all fault codes.' There are 'Ok' and 'Cancel' buttons at the bottom of the dialog. The background of the software interface is dimmed. The rest of the interface, including the navigation menu, status information, and contact details, remains visible behind the dialog.

15. Customer will receive email thanking them for their purchase with the Terms and Conditions of the APR Plus Limited Powertrain Warranty attached.

APR Plus TCU Installation Guide

APR Plus software is installed through our direct port programming (DPP) software very similarly to our normal product line. To complete the installation, you will need the software installed on a windows computer, your login and password, an APR Cheetah Cable, VCDS and an adequate vehicle battery charger. DPP software can be installed using the following link: http://www.goapr.com/Browser_Update/DPP/APR%20Install.exe .

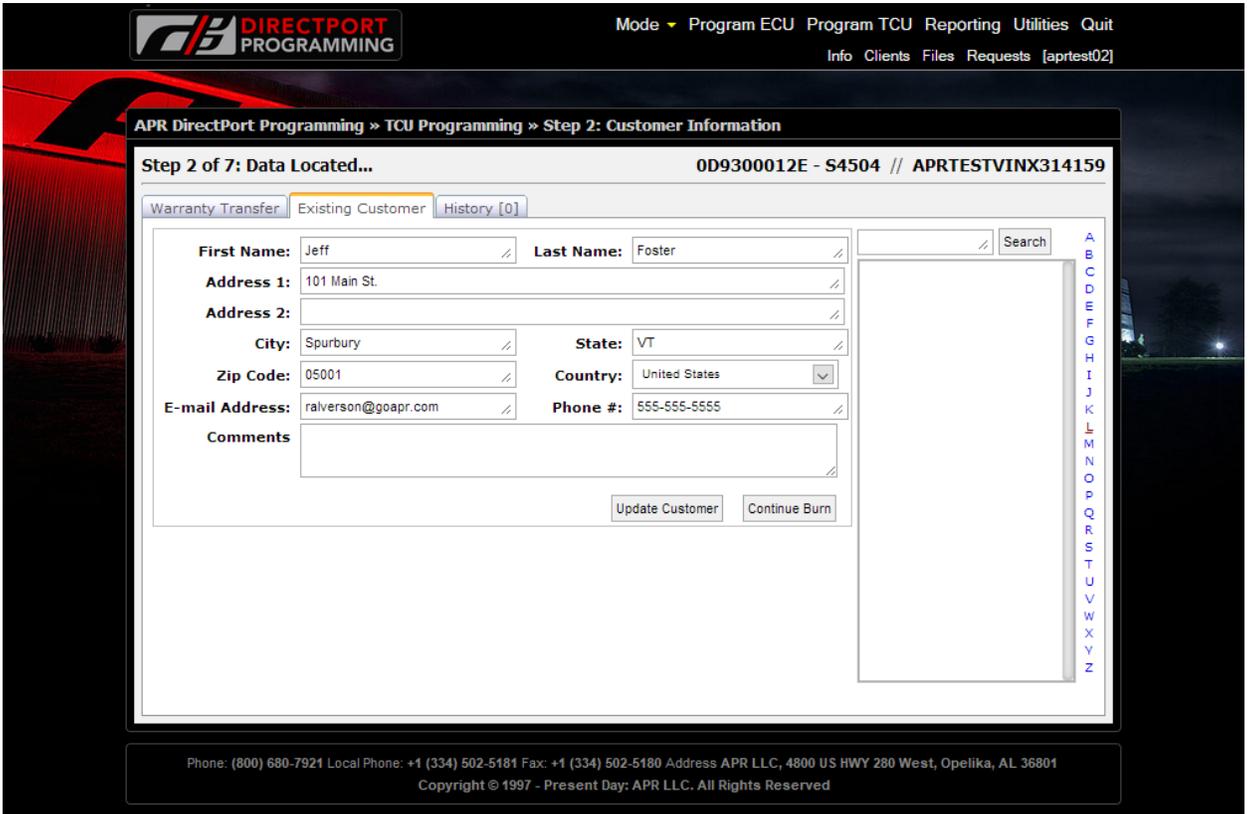

1. Install adequate battery charger to vehicle.
2. Verify that there are no stored fault codes using VCDS.
3. Log into DPP and select 'mode', then select APR Plus .

- Click Program TCU (note the APR Plus logo in the background to show a successful mode switch).

- Enter customer information or select customer information if they are an existing customer.

6. Select appropriate TCU file (note that only APR Plus and OEM Stock will be available).
